The Anchor Promise

- One Contact
- One Order
- One Delivery Schedule
- One Account

Anchor supply components and assemblies for

- Submarines
- Cruise Liners
- Formula One Cars
- Oil Rigs
- Ambulance/Police
- Tracking Systems
- Motorway Signs
- Aerospace Industry
- Ministry of Defence
- Jet Engines
- Motor Cars
- Automotive Engines
- Mobile Video Imaging
- Medical Equipment

The Anchor service is all-embracing with a total package of **Strategic Supply Solutions**. We provide a dedicated contact system linked to **Fast-Track Product Sourcing** through a unique network of over 400 partners in our **Preferred Supplier Programme**.

We offer **Single Consignment Solutions** which minimise carriage charges and administration plus **Guaranteed Contract Pricing** which ensures a fixed price for each delivery which can be scheduled to your production so cutting your inventory.

A commitment to service is reinforced with professional levels of operational audit which include **ISO 9001:2000** status and the awarding of The Guild of Master Craftsmen membership for Quality and Service.

Certificate number ...3211/02...

ANCHOR
COMPONENTS

Anchor Components, your
**Complete
One-Stop**
Supply Chain
Management Solution

Anchor is a totally independent company with a **Preferred Supplier Programme** comprising a data-base of over 400 established world-wide partners which provides our customers with a complete fulfilment Guarantee.

Our specialised service is geared to maintain your Bill of Materials and to deliver to agreed timescales. Importantly **The Anchor Sub-Contract Resource Facility** is not a franchise operation which would prevent purchase outside of the agreement and create costly delays when the only option becomes waiting for the manufacturer's lead-time.

99%
is not
enough

A 100% fulfilment guarantee enables Anchor to achieve **maximum logistical benefits** for our customers in the supply of complete assemblies through a scheduled delivery and buffer stock service.

Total Procurement and Sub-Contract Manufacturing Solutions

From our manufacturing facility we are able to provide the following:-

PTH Assembly

- One-off through to medium volume PTH assembly.
- 3D solder exclusion jigs for auto-masking of mixed technology pcb's.
- Mechanical assembly to include boxing or front panels etc.
- Cable assembly pcb wiring.
- Pcb / unit test and fault finding to component level.

SMD Assembly

- Full auto assembly from 0402 to 42mm, including odd form and BGA. Larger components placed using multi-field of vision centering.
- Low to medium volume SMD and mixed technology pcb's.
- Pcb / unit test and fault finding to component level.
- Finished assemblies washed and rinsed in de-ionised water.
- Hand SMD assembly to 0402 /12thou pitch using stereo microphones.

Anchor supply components for Submarines
